

The All-New 2022 Golf GTI

8th generation of an icon

The new Golf GTI – the 8th generation of an icon takes driving dynamics into a new dimension. With a standard limited slip differential (VAQ) and available Dynamic Chassis Control (DCC), the impressive 241 horsepower and 273 lb-ft of torque can be precisely controlled. Golf GTI comes available with a lightning-quick 7-speed dual-clutch DSG automatic transmission, but for drivers seeking a more classic experience, you can #savethemanuals with the standard 6-speed manual gearbox.

Top Features

241 HP turbocharged engine

The “EA888” 2.0L turbocharged engine in the Golf GTI has an impressive 241 horsepower and 273 lb-ft of torque, propelling the car to 100 km/h in as little as 6.2 seconds.* With a broad power band, you’ll enjoy instant response everywhere from city streets to winding country roads. The standard “VAQ” electronically-controlled limited slip differential helps puts the driver in full control with sure-footed traction even in challenging conditions.

Dynamic Chassis Control (DCC)

DCC continuously reacts to the road surface and driving situation to adjust the suspension damping rate for optimal performance. Pre-set profiles include Comfort, Eco, and Sport, while Individual mode offers customization even beyond these parameters. The DCC system can adjust individual wheel damping 200 times per second, helping to keep the tires where they belong: in contact with the road.

Digital Cockpit Pro

Volkswagen’s 10.25" Digital Cockpit Pro is now standard in every Golf GTI. By default, the Sport layout puts a large tachometer front-and-centre. The layout is widely configurable with views focusing on driver assistance, a classic two-dial style, or even a minimalist approach.

Head-Up Display

The available Head-Up Display (HUD) in the GTI puts the most important information right in front of you to keep your eyes fixed on the road ahead. When enabled, part of the windshield becomes a projection surface to display speed, navigation instructions, and information from various driver assistance systems.

Legendary hatchback, legendary seating

New racing-style front bucket seats with integrated headrests feature a red wrap-around accent and impressive side bolstering that’s firm enough for the track without sacrificing everyday comfort. Classic GTI plaid cloth seating surfaces, in a new pattern called “Scale Paper,” are standard. For those who appreciate this part of GTI’s heritage, cloth seating can be selected optionally even in the top Performance trim.

*Please drive safely and obey all local traffic laws, including speed limits.

Sporty charisma

When there is a red line stretching across the front, and the radiator grille features a honeycomb design and black air intakes, there can just be three letters on the badge: GTI. Slim LED headlights, a strikingly unique bumper and extended rocker panels add even more character to this legendary model. At the back, the roof spoiler and chrome-plated exhaust pipes are essential features, while the LED tail light clusters leave a unique signature for those in your wake.
