Clarity Plug-In Hybrid
The hybrid that’s as beautiful as it is efficient.

There’s no better feeling than arriving in a car as beautiful and sleek as the Honda Insight, except the satisfaction of knowing it’s also a hybrid. With stunning design and an impressive 55-mpg city rating* (LX and EX), the Insight always makes an entrance.

Sophisticated Design, Efficient Package
• 151 total system horsepower†
• Auto high-beam headlights
• Honda Sensing® suite of safety and driver-assistive features
• Remote engine start**
• LED headlights, Daytime Running Lights (DRL) and turn indicators
• LED fog lights**

**Available features. Please visit automobiles.honda.com/specifications for actual trim application.

The hybrid that’s as beautiful as it is efficient.
The Insight comes with high-tech features and full LED headlights to complement a forward-looking design. To match its airy, sporty aesthetic and elegant finishing details, the Insight impresses inside, with a spacious cabin that provides a one-of-a-kind experience for drivers and passengers.

Captivating Features

- 450-watt premium audio system with 10 speakers, including subwoofer*
- Wi-Fi2 hotspot capability*†
- Apple CarPlay®3 integration*
- Android Auto®4 integration*
- SiriusXM® Radio*5 / HD Radio®6*7
- Honda LaneWatch®
- Smart Entry with Walk Away Auto Lock®
- Heated front seats*

Put range anxiety in the rearview mirror. Sometimes, you want to drive an electric car. Sometimes, you need more flexibility. That’s why Honda created the Clarity Plug-In Hybrid, with a 340-mile total range rating.* Charge up and drive on electricity, and tap into a gas reserve when needed, all while spending less time at the pump.

Power your journey with electric or gas.

Powerful and Tech-Forward
- 212 total system horsepower¹
- 47-mile electric-only range rating *
- California HOV lane access-eligible²
- Seating for 5 adults
- Honda Sensing® suite of safety and driver-assistive features
- Apple CarPlay® integration
- Android Auto™ integration

Your driving range will vary depending on driving conditions, how you drive and maintain your vehicle, battery-pack age/condition and other factors.
The Clarity Fuel Cell is the most advanced zero-emissions1 Honda vehicle ever. This breakthrough hydrogen vehicle’s only emission is water. It can be refueled in 3-511 minutes throughout California, thanks to the state’s growing network of hydrogen stations. The Clarity Fuel Cell converts hydrogen into electricity to power the high-torque electric motor. For increased efficiency, a small onboard battery stores energy recovered during deceleration and braking, adding “free” electrons to the power mix.

The car of tomorrow.

Innovative Tech
• 174-hp1, 221 lb-ft torque high-output electric motor2
• California HOV lane access-eligible3
• Honda Sensing® suite of safety and driver-assistive features
• Head-Up Display (HUD)
• 540-watt premium audio system with 12 speakers

Honda is dedicated to identifying and implementing advanced designs and features that help enhance the safety of drivers and passengers, including occupants of other vehicles, and injury mitigation for pedestrians.

Key Standard Safety Features

- Advanced Compatibility Engineering™ (ACE™) body structure
- Advanced driver and front passenger airbags
- Multi-angle rearview camera

The Honda Sensing® Suite.

A - Collision Mitigation Braking System™ (CMBS™)
CMBS can help bring your vehicle to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

B - Lane Keeping Assist System (LKAS™)
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep your vehicle centered in a detected lane.

C - Road Departure Mitigation System (RDM™)
RDM can determine if you cross over detected lane lines without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep you from leaving the roadway entirely.

Adaptive Cruise Control (ACC) with Low-Speed Follow
ACC helps you maintain a set following interval behind a detected vehicle for highway driving. If the detected vehicle slows to a stop, ACC is designed to slow and stop your vehicle as well. After stopping, a tap on the throttle instructs the car to continue maintaining the desired interval.

There for you. And you, you and you.
Travel smarter.

Stay connected with your vehicle right from your smartphone. The HondaLink® app provides assistance, service and convenience. Visit hondalink.com for more information on features and subscription services.

**Key Available Features**
- Personal Concierge
- Remote Start
- Remote Lock & Unlock
- Emergency Call

*Depending on use, HondaLink can transmit to Honda and its providers a vehicle's location, speed and other operating conditions, information that may be tied to the vehicle identification number (VIN) and can be combined to create a track of a vehicle. For a full explanation of HondaLink functionality and Honda's data use and privacy policy, see owners.honda.com/hondalink.

**Wi-Fi on the go.**
